Science week competition!

As part of science week, Mrs Darby is running a rocket competition! You need to make and design a rocket at home with your grown up. You will then bring your rocket into school on the 12th of March. All rockets will be tested to see which one flies the furthest and this will be the class winner. On Friday, each class winner will compete to find a whole school winner! There will be a prize for the overall winner!

The winning rocket will be the one that travels the furthest and will be decided by Mrs Darby.

You may use any materials you wish but no motors or electrical help is to be given to your rocket.

Good luck and be creative!

Mrs Darby

Science Co-ordinator.
